Medsy Demo Medical College
Live practice: 10 + 20 descriptive questions

Midterm / First Year / 2026 - 2027

Duration: 2 hours **Maximum marks: 154**

I. Multiple Choice Questions **4 marks**

1. Which chamber pumps oxygenated blood into the systemic circulation? [1 mark]

   A. Right atrium
   B. Left ventricle
   C. Right ventricle
   D. Left atrium

2. Which cell carries oxygen in the blood? [1 mark]

   A. Platelet
   B. Neutrophil
   C. Red blood cell
   D. Lymphocyte

3. Which organ produces bile? [1 mark]

   A. Liver
   B. Spleen
   C. Kidney
   D. Lung

4. Which structure connects muscle to bone? [1 mark]

   A. Ligament
   B. Cartilage
   C. Tendon
   D. Nerve

II. Short Answer Questions **50 marks**

5. Case 1: Describe the function of red blood cells. [5 marks]

6. Case 2: Explain the role of the heart in circulation. [5 marks]

7. Case 3: Describe the main functions of the kidneys. [5 marks]

8. Case 4: Explain the role of informed consent. [5 marks]

9. Case 5: Describe effective communication with a patient. [5 marks]

10. Case 6: Describe the function of red blood cells. [5 marks]

11. Case 7: Explain the role of the heart in circulation. [5 marks]

12. Case 8: Describe the main functions of the kidneys. [5 marks]

13. Case 9: Explain the role of informed consent. [5 marks]

14. Case 10: Describe effective communication with a patient. [5 marks]

III. Long Answer Questions **100 marks**

15. Case 11: Describe the function of red blood cells. [5 marks]

16. Case 12: Explain the role of the heart in circulation. [5 marks]

17. Case 13: Describe the main functions of the kidneys. [5 marks]

18. Case 14: Explain the role of informed consent. [5 marks]

19. Case 15: Describe effective communication with a patient. [5 marks]

20. Case 16: Describe the function of red blood cells. [5 marks]

21. Case 17: Explain the role of the heart in circulation. [5 marks]

22. Case 18: Describe the main functions of the kidneys. [5 marks]

23. Case 19: Explain the role of informed consent. [5 marks]

24. Case 20: Describe effective communication with a patient. [5 marks]

25. Case 21: Describe the function of red blood cells. [5 marks]

26. Case 22: Explain the role of the heart in circulation. [5 marks]

27. Case 23: Describe the main functions of the kidneys. [5 marks]

28. Case 24: Explain the role of informed consent. [5 marks]

29. Case 25: Describe effective communication with a patient. [5 marks]

30. Case 26: Describe the function of red blood cells. [5 marks]

31. Case 27: Explain the role of the heart in circulation. [5 marks]

32. Case 28: Describe the main functions of the kidneys. [5 marks]

33. Case 29: Explain the role of informed consent. [5 marks]

34. Case 30: Describe effective communication with a patient. [5 marks]
